Protocol, watercolor by Nan Rumpf

Artists Statement

The most captivating part of painting for me is the process. I like to see how watercolors and other watermedia react to different painting surfaces. Does the surface affect the edges...the flow...the puddling properties of the paint? Experimenting with different methods to obtain accidental texture also appeals to me. The results of these experiments give me something to respond to and motivate me to continue experimenting with shape, value, and composition as I develop each painting. I am attempting to capture the essence of forms from my observations, memories, and imaginings.

Leeuwenhoek, watercolor by Nan Rumpf

ABOUT NAN

WWW.NANRUMPF.COM

Nan Rumpf has studied watercolor painting with Susan Swinand, Lois Smiley, Jane Goldman, Paul George, Charles Reid, Miles Batt, and Cheng Khee Chee

ABOUT GAIL

WWW.GAILFISCHER.COM

Gail Fischer is a freelance photographer in Boston, MA, previously based in New York City.

Gail's core background is in Fine Art photography, however, she has spent most of her career shooting medical, public relation and corporate assignments.

In addition to her freelance work Gail teaches privately and works with other photographers as an Artist representative.

Artist Statement

Photography enables me to see the world through creative lenses. I seek out the unusual. My goal is to capture the image in a visually interesting way always looking for a new perspective-unposed, unaltered in photoshop, honest, and more commonly than not with a sense of humor.

Ordering Fine art Prints

All photographs are printed using archival inks and papers that are rated at nearly 100 years. All images have been embellished with oil pastels and artists pencils. Each print is signed and dated by the artist.

Understanding Color

Why do images vary so much from one computer screen to another?

Each computer screen is different. To have accurate color you should have your monitor calibrated on a monthly basis.

Need help with color management?

Mark Richards Professional imaging takes pride in providing color management solutions to:
Corporations,
Galleries,
for desk top publishing,
artists and individuals.

To learn more about color management solutions call Mark
